## DEMPSEY ABHORS LOAFING; SAYS IT GETS HIS NERVES

Champion Writes First Article for Readers of The News—Gives Dope of His Training Camp

(By JACK DEMPSEY)

ATLANTIC CITY, N. J.—(Special)—This is only my second day of idleness, but I have already begun to feel the strain of doing nothing. If Doc Kearns had not locked up the gymnasium and all the boxing paraphernalia before he left for New York yesterday I would certainly be inclined to duck in and do some work.

Doing nothing is the hardest job in the world for me, and I'm glad I have only two more days of it before the fireworks start again. Everybody around the camp tries hard to keep me cheered up and I have a lot of fun with the newspaper boys but nothing can take the place of eight or ten rounds of hard boxing for me. I like action and lots of it. If I don't get it I become nervous.

I noticed my trainer, Teddy Hayes, doing a lot of towel swinging this morning and told him if he was practicing up for the day of the fight he could save himself the trouble, because I don't need any towel swinging during a battle.

Anybody who saw my setto with Bill Brennan, at Madison Square Garden, will remember that there was no towel used. Usually one of the seconds climbs into the ring between rounds and fans a fighter with a big turkish towel. I don't need that sort of thing. My wind is always good and all I ask is a mouthful of water or a suck on a piece of lemon to rinse my mouth.

I have never believed in having too many men in my corner during a battle. Here is a case where too many cooks spoil the broth. Just two or three men who know their business, and have cool heads are all I need.

Of course, I have not decided who will be in my corner the day of the fight. It's a little too early for that, but I am sure that my manager, Jack Kearns, will be one of them. Jack's got a wise old head on his shoulders.

I have been amused by some accounts of what I'll say to Carpentier in the ring. Now I like to read and do read some every day, but I'll never get a reputation as a speaker or debater. Anything I may have to say on the afternoon of July 2, in Jersey City, will be said with my fists. And what I shall say in this respect I think will be plain enough for everybody, including Carpentier, to understand.

It is quite useless to predict what will happen in the big fight, but of one thing everybody may be certain, and that is I'll keep the great French fighter so busy he won't have much time to talk to me, even if he was so inclined.

Furthermore, I doubt if either of us could understand the other if we were to talk for a week. I have been told that Carpentier knows only a little English, and the French I know could be written on the back of a postage stamp. However, we have one common ground for a right or left hook is the same in all languages and carries the same message. If delivered to the right spot, with enough force, a stiff punch spells good-night in any tongue.

My pal, Mike Trant, the Chicago Detective Sergeant, and I tried something new this morning. We set up a target near the house and put on a rifle and revolver contest. Mike was the better man with the revolver, but I hit the bullseye more often with the rifle.

We nearly frightened "Mother" Hutchinson, the cook, out of her wits. The balance of the morning I put in reading detective and adventure stories. Now that the newspaper boys have learned that I like to read they are bringing me all sorts of books.

Martin Burke, the New Orleans heavyweight, got back to town today and brought with him Red Dolan, a lightweight, and a new head guard. Martin wants to protect a cauliflower ear he got in one of his recent fights. He is going to need that head guard when he works with me.

## WIFE PLEADS GUILTY TO MURDER OF HER HUSBAND

BRIDGEPORT, Conn.—(By Associated Press)—Mrs. Ethel Hutchinson Nott, on trial here for the last two weeks for the murder of her husband, George B. Nott, on August 29 last, today pleaded guilty to second degree murder and was sentenced to life imprisonment. She was in a state of collapse when court opened and had to be carried to her chair.

Robert De Forest, for the defense, immediately addressed the court, saying that "certain documentary evidence had come into the possession of the state since this trial began that has put a different aspect on the case. The defense is ready to offer a plea of guilty to a charge of murder in the second degree."

The documents referred to consisted of some fifty letters written by Mrs. Nott to Elwood B. Wade while they both were in jail here. Wade was hanged recently for his part in the crime.

State's Attorney Homer S. Cummings opposed the acceptance of the plea, declaring that he could not differentiate "in law and morals" between the guilt of Wade and Mrs. Nott, who was indicted with him. Judge William M. Malbie in accepting the plea said he believed that Mrs. Nott's physical condition was such that she would not be able to hold out during the trial and the state's work might go for naught. Mrs. Nott was carried from the

court-room after sentence had been given.

John Johnston, who was indicted with Wade and Mrs. Nott for the murder, then pleaded guilty to the charge of manslaughter. This was accepted and he was sentenced to one year in jail.

State's Attorney Cummings said Johnston had aided the state in all ways within his power.

## WAGE VOTE TAKEN

P. and O. E. Employees Balloting Today on New Agreement

YOUNGSTOWN—(By Associated Press)—Members of street car unions, employees of the Pennsylvania and Ohio Electric company, today are voting upon a wage agreement reached last night by company and union representatives, after two days of conferences.

The rate agreed on was 18 cents an hour for the first three months of service, 51 cents for the next nine months, and 56 cents thereafter. Operators of one-man cars are to receive five cents additional.

The maximum figure heretofore was 68 cents an hour, with no allowance for one-man cars. The company sought to have the maximum reduced to 50 cents an hour.

# ADMITTS ROBBERY

## PROBE SENSATION IS HINTED

Indications late Thursday afternoon were that a sensation will result from the grand jury probe now under way. It became authoritatively known that the scope of the jury's investigation into conditions in the city has been extended and that new elements may

be drawn in to the complex situation. While neither Prosecutor Lipincott nor Mayor Burkhardt, who was before the jury Wednesday, would discuss the matter, it is known that a new list of witnesses has been prepared and that the

county authorities have names not furnished by the mayor. It is known that the trouble in which two police sergeants were involved last Sunday morning and which resulted in their resignations has been aired before the jury to some extent at least.

Other phases of the fight the mayor has waged on the police department also are said to have entered into the investigation. What turn affairs will take Friday is not known. All officials concerned have seen fit to throw a veil of secrecy around the proceedings.

## MANY PERSONS DIE IN RIOT FLAMES

Exact Toll of Tulsa Race War May Never be Known

NUMBER NOW PLACED AT 100

Thousands of Negroes Homeless as Fighting Ceases

TULSA, Okla.—(By Associated Press)—Today, this city under the control of strict martial law began a systematic stock-taking of the death and ruin which a few hours of race rioting spread in its path Tuesday night and yesterday.

The military forces, headed by Adjutant General Barrett, started a check-up of the list of dead, which was said to be somewhere near 100, most of them negroes. Belief was expressed by all officials that the disturbance would not recur.

Eight white men were killed so far as a check of the morgues disclosed. Some of the 35 injured in hospitals are expected to die.

When the military forces searched the burned negro quarters a number of negro bodies were expected to be found. This morning the bodies of fifteen negroes lay in the morgues. Belief was expressed by officials that the bodies of all the negroes killed would not be found, as it was thought that a number were burned in their homes. Then, too, reports were received at military headquarters that a number of negro bodies had been thrown into the river and others buried outside of the city.

Physicians treating wounded negroes at hospitals said a score could not recover.

STORES REOPEN  
Military patrols and guards at every principal street corner kept a firm grip on the situation today. Business was virtually suspended last night under a general order issued by Adjutant General Barrett, but stores were permitted to open at six o'clock this morning.

Citizens were not permitted on the streets last night, under the order, and it was strictly enforced by the guardmen. Any one who ventured on the streets without a military pass was taken to the guard house.

A sweeping investigation of the causes leading up to the rioting was expected to get under way during today. Governor Robertson, who came here late yesterday, planned to take an active hand. A military commission had the task of fixing responsibility for the outbreak.

THOUSANDS HOMELESS  
Outside the horror of killing and wounding in the series of race battles, the situation of thousands of homeless negroes presented the most serious condition and one which will give authorities the biggest problem for solution. All that was left this morning of the hundreds of negro homes bunched in the section, fired by white rioters, was a blackened waste, a curling column of smoke here and there and a few shattered walls.

An idea of the extent of the destruction in the burned area is gained from the statement that it is more than a mile square. Virtually no buildings escaped.

The property loss, according to real estate men, will total well over \$1,500,000.

Five thousand negroes were camped in the fair grounds under the protection of the militia and thousands of others who fled out of the city came trickling back.

Citizens were called upon to contribute bedding and clothing for relief of the refugees. A civilian committee and the Red Cross provided food and other comforts.

Trains coming into Tulsa last night brought no negroes and the number of white passengers was reduced sharply. At the downtown hotels, where negro bell boys and porters heretofore have been employed, guests were requested to tell the substitute elevator operators their floors and then find their own rooms.

The matter of collecting insurance on the properties in the negro quarter destroyed by fire in the fighting between negroes and whites Tuesday, today was in dispute, the insurance men holding that their policies on the approximately \$1,500,000 worth of buildings destroyed did not recognize mob violence as a destructive agent.

## THIS IS YEAR OF FIVE-DOLLAR WEDDING

CLEVELAND—(By United Press)—"This is the year of the five-dollar wedding instead of the big society ceremony," Frank Zizelman, marriage license clerk here, said today.

Most of the fellows and girls seem to prefer a quiet little ceremony by the minister in the church around the corner, or by a justice of the peace, according to Zizelman.

"We have issued very few licenses for big church or home weddings since the first of the year. Most of the couples want to know the name of the nearest minister or justice of the peace."

"Many of them tell me that it is better to have a \$5 wedding and to make a payment on a bungalow than to spend all their savings on a touseau, elaborate breakfasts and excess fares to Niagara Falls," Zizelman said.

So young couples keep up this economic strain, little orange blossoms that ordinarily would decorate weddings this month will grow up to be nice ripe Christmas oranges.

## LAD, IN MOTHER'S ARMS, ON TRIAL

Unusual Picture Presented in Indiana Court Room

KNOX, Ind.—(By United Press)—The court room here today presented a picture that might have been taken from a fairy book—or a children's playroom, except for the tragic and deadly serious demeanor of the main actors.

Eleven-year-old Cecil Burkett, resting on his mother's lap, was the center of this tragic children's picture. He was on trial on a charge of murdering seven-year-old Bennie Slavins. His seven brothers and sisters, all of tender years, also were in court.

Other children were grouped around the court room. Many of them were witnesses, some for Cecil and others for the prosecution.

Bennie's mother demands that the killing of her boy be avenged. Cecil denies he shot Bennie. He claims Bennie shot himself accidentally.

CHILDREN TESTIFY  
Other children who were with the two boys the day of the shooting, testified that Cecil was holding the gun when the shot was fired and that Bennie, before he died, said: "Cecil shot me and I am going to die."

Cecil's father is a poor day laborer. Bennie was the son of a struggling crossroads mercant.

The entire section of the county is divided on the question of whether Cecil should be punished. The state will not ask a heavy punishment in case of conviction, but will demand that the boy be confined in some home for children.

GAME TO THE LAST  
Howell Calmly Goes to Death in Electric Chair

COLUMBUS—(By Associated Press)—Attaches of the Ohio State penitentiary declared this morning that Richard Howell, 42, electrocuted shortly after midnight for the murder of Anthony Sketnicky, Canton detective, more than a year ago, died the gamest of any man ever executed at the institution.

Altho disappointed in not having secured a reprieve from Governor Davis, which he anticipated thruout yesterday, Howell remained calm and composed to the very end.

His last words, following a faint smile, directed at Warden Thomas, who had known him since 1904, when Howell was a convict at the Ohio State Reformatory at Mansfield, and Thomas was a guard, were "Warden, how many more minutes have I?" A minute later the current was turned on.

Howell's body was sent to his home at East Liverpool today.

## WOMEN AT FRONT IN SILESIAN WAR

Wagon Loads of Dead Conveyed From Fighting Zone

MANY FACE STARVATION

Situation Critical As Factions Continue Battles

OPPLEIN—(By Associated Press)—French soldiers forming the garrison of Beuthen, a city in southeastern Silesia near the old Polish frontier, have been attacked by forces organized by the German inhabitants of the town. Reports state the Germans numbered 3,000.

The French used tanks in charging the Germans, and are said to have gained the upper hand. There have been many German casualties. It is reported, but the French have not suffered losses.

The situation at Beuthen is complicated by the presence of Polish insurgent forces around the city. The Poles began a fight with Germans in the outskirts of the town on Sunday, and when the French were attacked, the Poles rushed to their assistance. Reports from Beuthen are not entirely clear, but it would appear that the French commander refused the proffered aid, as it is said the French are holding the Poles from entering the town.

SITUATION GRAVE  
The situation at Beuthen is reported by neutral refugees reaching here to be grave. The German population of the city is declared to be desperate. Food supplies are running short and there has been much looting during recent nights.

All wire communication between Beuthen and Katowitz, further south, has been interrupted since Monday. Refugees arriving here say the French, at Katowitz, have killed a number of Poles who attempted to loot two motor lorries loaded with food, and it is declared there were some French casualties.

Germans and Poles have been engaged in a battle at Posenowitz, near Gross-Strehlitz, just east of the Oder river and south of Oppeln. The Germans have attacked the Poles and have forced the insurgents to withdraw from strong positions.

WAGON LOADS OF DEAD  
German dead and wounded have been removed from the scene of this fight, to Krapitz, a town on the west bank of the Oder. When farm wagons loaded with German dead entered Krapitz, the populace was so excited that Baron Von Pless, commander of German volunteer organizations there, had difficulty in controlling the temper of his officers. The correspondent of the Associated Press was at Krapitz when these wagons entered the town, and saw the dead, who ranged from 16 years to sixty, removed from them.

Women began volunteering last night for service at the front. The Germans are sending every man possessing any sort of weapon to the Posenowitz front.

Advices received here state the Germans in control of the city of Gletwitz, about 10 miles northwest of Beuthen, have mined the town and will wreck it if the Poles attempt to capture the place. Members of the black watch, constituting a part of the British forces sent to Silesia, have reached Stubendorf, about six miles northwest of Gross-Strehlitz, and Polish sentries are on duty only a short distance away. French soldiers are in undisputed possession of Gross-Strehlitz.

It is reported in German circles here that orders have been issued by the Poles to destroy everything as they retreat, should the British advance.

## RAIL MEN THINK PAY CUT UNJUST

Workers, However, Will Accept Labor Board's Decision

CHICAGO—(By United Press)—Rail workers feel that the 12 per cent cut ordered by the United States railroad labor board is unjust at this time, but will accept it reluctantly.

Many of the rank and file who were talked with at Chicago's big terminals expressed the opinion that they have not yet noticed a 12 per cent cut in their grocery bills. They said the cut in necessities was hardly noticeable.

Workers on the railroads are up against these problems, they say, and realize them fully:

A strike would now have public approval. The general public is having a hard enough time making ends meet during the industrial depression. It would refuse to back any movement that would make the hard time worse.

There has always been a certain jealousy of rail workers by men of other trades. Outsiders always dubbed the railroader as "the aristocrat of labor."

This adverse sentiment would mean that other crafts would not support a rail strike.

Leaders of the powerful rail unions refuse to comment on the cut or predict what will happen.

## STRIKERS RETURN

65,000 New York Clothing Makers Affected by Settlement

NEW YORK—(By Associated Press)—Approximately 65,000 New York clothing workers today began a gradual return to work following a general strike in the industry starting last December.

Thirty thousand were expected back in the shops as the result of an agreement reached between officials of the Amalgamated Clothing Workers of America and the Clothing Manufacturers' Association. A formal settlement, drawn up for signing today, provided for a fifteen per cent reduction in wages for all workers except cutters, who will be graded according to the class of work.

The agreement also provided for a 15 per cent increase in weekly production and for an impartial board of arbitration. All the workers were expected to be back at their jobs within two weeks.

## TOLEDO BUSINESS MAN CONFESSES

Harry Fisher Pleads Guilty to Postoffice Holdup

NEGOTIATED SALE OF BONDS

Linked With \$280,000 Disposal of Securities

TOLEDO—(By United Press)—Harry Fisher, Toledo business man, has entered the first plea of guilty to the charge of conspiracy to rob the Toledo postoffice. Fisher was indicted with 24 others on April 29. More than \$1,000,000 in Liberty Bonds and \$22,000 in cash were stolen.

Fisher is out on \$50,000 bond. It is understood that he negotiated the sale of \$250,000 of the stolen bonds with New York parties. The bonds are said to have been the share of James Sapsone, alias Mike Scollia and George Rogers, both of whom are charged with actual participation in the robbery. The share of each of the six robbers who staged the hold-up was \$140,000 in bonds and money, the balance going to those who were employed in disposing of the bonds and to meet other expenses incurred by the gang.

FOUR AT LARGE  
The other four bandits, besides Scollia and Rogers, according to the indictment, are Joseph Urbaytis, leader, Charles Schultz, Eddie O'Brien and James Colson. O'Brien and Colson have not been caught.

Fisher is said to have been assisted by Jacob (Lippy) Cohen and Tarry Oppenheimer, of New York.

It is believed that more pleas of guilty will be entered before the trial of 25 suspects starts on Monday. Federal Judge Killitt will be the trial judge. Stuart Bolin, former district attorney for the southern Ohio district, has been named by Attorney General Daugherty to prosecute the case.

NUMBER INCREASED  
The number of those indicted was increased by six when the federal grand jury made another report of the robbery investigation on Wednesday. Wanda Urbaytis, sister of George, the Rev. Anthony Gorski, priest of New Chicago, Ind., Albert Murzyn, Whiting, Ind.; John Paulek and Stanley Hartnackowski, Indiana Harbor, Ind., and James E. Epps, Chicago, were indicted on Wednesday.

The arrest of the Rev. Father Gorok and his alleged confession that he received \$85,000 in stolen Liberty bonds from the Urbaytis girl led to the indictments yesterday.

## OHIO LOST 6,093 IN WORLD WAR

Figures on Casualties Are Given Out At Columbus

COLUMBUS—(By United Press)—Ohio lost a total of 6,093 soldiers from all causes in the World War, between April 6, 1917, and November 11, 1918, Adjutant General Florence announced today.

The figures do not include marines, because the war department has not finished checking the casualties in that branch. The dead included 227 naval members from Ohio.

Cuyahoga had the highest death rate with 922. Hamilton-co was second with 498; Summit third with 339 and Lucas fourth with 299. Carroll-co had the smallest number with seven victims.

The list of dead was divided as follows:

Killed in action, white 2,025; colored 33; died of wounds received in action, white 738; colored 7; died of disease, accidents and other causes, white 1,271; colored 69. Domestic deaths, white, 1,864; colored 74.

A total of 11 officers, addresses unknown, were included in the list.

## 16 INDICTMENTS ARE RETURNED

Grand Jury to Resume Deliberations Friday

## ALLEGED BANDITS ARE HELD

Witnesses in City Vice Probe to be Called

The Allen county grand jury returned a partial report of its findings, after a two days' session, Tuesday afternoon at 5 o'clock.

Sixteen indictments were returned, of which 14 are made public. Two indictments, each for robbery, were brought against Joe Willis and George Donovan, for the part they are alleged to have played in the robbery of the farm home of Samuel and Jacob Fett, bachelor brothers, near Bluffton, on May 14.

John Mason, another of the alleged bandits captured after a gun battle with police in which Raleigh Townsend was killed, on May 21, was indicted for carrying concealed weapons.

The jury was ordered to report at 10.30 o'clock Friday morning to complete its labors. Forty-four witnesses were examined, 23 cases investigated and seven cases ignored by the body.

### WOMEN INDICTED

Two indictments each were returned against Gladys Pepple and May Kelly, young women now confined in the county jail. Both are charged with shoplifting from the Daisel store.

Garry J. Merrill, negro, 839 E. North-st., was indicted for operating an automobile without consent of the owner. Merrill was the driver of the large Cadillac car on the night of May 1, which crashed into a telephone pole at Jameson-ave and North-sts., when one of the negroes, Bve of whom are said to have been on a joy-ride, was killed. He was Allen Ford, 1033 W. Spring-st. Merrill is declared to have taken the car, which belonged to Ora Green, contractor, from the auto laundry, in the rear of the court house, for the ride. The automobile, purchased only a few weeks before, was practically demolished.

C. F. Craig, against whom an indictment for forgery was returned, was brought back to Delphos from Detroit, where he was apprehended. He is charged with securing \$72 from Rimer Davis on a check drawn on the Cleveland Trust company.

### FOR CARRYING WEAPONS

J. Thompson and James Massey were arrested at Spencerville for carrying concealed weapons. The men left Huntington, Ind., carrying revolvers in their pockets and were arrested in Spencerville upon advice from authorities in the Indiana city.

Frank Davis, indicted for burglary and larceny, is charged with burglarizing Swick's barber shop some weeks ago. He was apprehended at Sidney a few days ago and returned to this city. His case was taken up to the grand jury from municipal court.

Prosecuting Attorney Eugene Lipincott would not state Thursday whether witnesses would be called to testify before the grand jury on Friday, in connection with the city vice probe, affecting alleged non-enforcement of liquor laws, as charged by Mayor Burkhardt.

It is planned that the alleged bandits, Donovan, Mason and Willis, will be arraigned Friday morning.

### ILLEGAL PEDDLING

Found guilty of peddling without a license, Dewey Sanga was fined \$5 by Judge Jackson in police court, Thursday morning.

## Interviews-- Ideas and Fancies

LEIGH S. WATSON, Resident Manager, E. W. Wagner & Co.: "The decrease of about 12 percent in railroad wages, plus the elimination of 'watered payrolls,' will greatly aid in putting the railroads on a firm financial basis. It is doubtful whether the decrease will be great enough to permit a general reduction in railroad rates, but it is a step in the right direction. Transportation costs must be reduced in order to cause reductions in other lines to be effective. The difficult problem in reducing wages and freight rates is in proportion to the decline in the cost of living is to determine just how great those declines have been."

J. KENNARD JOHNSON, Manager Chamber of Commerce: "A merchandising institute to be held here in October by J. W. Fisk will benefit the public in much the same way that a teachers' institute does. It will show the merchant how to handle every department of his store in the best and most efficient manner. Every department, from the store front to the newspaper advertisement, including buying, delivery, score arrangement and merchandise turnover will be discussed. The weak spots will be discovered and remedies recommended. Of the eight proposed meetings, five will be for the merchants, two for everybody and one for the women of the city, that they may voice their criticism of present policies. These criticisms will be taken up with the merchants later."

F. W. NEWELL, 1128 W. Wayne-st.: "The question of employing the prisoners at the state penitentiaries in the manufacture of various products during the present period of unemployment is an important one. The need of some kind of employment in order to keep the prisoners in a sane condition is recognized, yet they should not be put into competition with the worker who has himself and a family to support. It would seem to me that there should be some things they could do that would not conflict with outside labor. The mere cheapness of their labor should not be the reason for their employment in preference to that of other workers."

JAMES G. MACKENZIE, County Commissioner: "I have not fully decided who will win the world's heavyweight championship at Jersey City, July 2. Both of the fighters are very good and it seems to me that it will be a better fight than the Toledo mill. Carpenter is a scoundrel boxer of the Conbelt type and will be able to hold his own with Dempsey even if he is outweighed. I do not believe that it will be as one-sided as many seem to think. Of the white boxers in the U. S. Brennan seems to be the strongest contender. There is at least one colored boy that could show Dempsey some action, however."

### CITED FOR CONTEMPT

Failure to pay his divorced wife, Mildred Lipps, amount of \$50 alimony and \$3 a week for support of their minor child, Raymond Lipps has been cited to appear in common pleas court Saturday to show cause why he is not in contempt of court. Divorce was granted Mrs. Lipps on April 30, last, on grounds of neglect.

### INFANT DIES

The infant child of Mr. and Mrs. Camille Cardone, 831 Alameda-ave., died Wednesday. Funeral services were held Thursday afternoon and the small body was laid to rest at Gethsemani.

## NO SEEKERS FOR TOWNSHIP JOBS

Aspirants Must be Under the Wire by June 9

No one in Lima apparently wants a job as assessor, constable, justice of the peace or member of the board of education. All these places are going begging, A. J. Morris, clerk of board of elections, said Thursday.

"June 9 is the last day for filing notice of candidacy for the August primaries," Morris stated. "Up to noon Thursday no petitions have been filed."

Where is just one week for them to get in under the wire. Candidates for the above named offices are the only ones who have to file on or before June 9, it was stated. Others under the commission form of government can wait 30 days, July 9, before announcing.

Because Ottawa-ave is the only one in Allen county it is the only one entitled to hold a primary for justice of the peace.

City primary this year will be a queer affair for old political war horses. All the old time battles are missing. No councilmen to be nominated or elected, no fight on mayor, city auditor or other municipal offices. Just the five commissioners and a few minor township offices.

There is a lot of speculation as to who will run for the five berths on the commission. Many are being talked of, but some are trimming their sails, but not one has been shocked into filing by a bolt of political lightning to date. But there is plenty of time in the next five weeks. July 9 will be the last day for commissioner candidates. Aspirants for assessor, constable, justice and school board must be under the wire June 9, according to Clerk Morris.

## FARMERS MAY FORM CO-OPERATIVE FIRMS

COLUMBUS — Ohio farmers may establish co-operative commission firms in Cincinnati, Cleveland and Pittsburgh.

This is held to be the logical result of plans of the livestock marketing committee of 15 of the American Farm Bureau Federation, are put into operation. This recommendation was embodied in a report of a subcommittee and adopted by the general committee meeting in Chicago on May 24, 25 and 26.

Harry Beal of Mt. Sterling, treasurer of the Ohio Farm Bureau Federation, is a member of the committee, and attended the recent meeting.

Such commission firms, it is said, are in operation in Omaha, St. Joseph, Kansas City, Chicago and South St. Paul. The firm in Omaha is said to handle more hogs than any other in the world.

### WORDS OF THANKS

Words fail to express our thanks to the friends for their beautiful floral offerings. The American Legion for their masterful work. The Rev. Howard for his consoling words. Interment of our beloved son and brother.

### BRYAN J. HIRE, MOSES R. HIRE, GUS D. HIRE and Family.

The news was sad, the shock severe. We little knew the end was near. To part with one we loved so dear. If we had seen you at the last and held your dying hand,

And heard the last sigh of your heart. We did not know the pain you bore. We did not see you die. We only knew you went away, And did not say good-bye.

## CLASS OF 1921 PRESENTS ABBY HOLY GRAIL SERIES

PICTURE TO SOUTH HIGH

Lima South High school has been presented with a valuable Copley print, the gift of the class of 1921. It is a large hand-colored copy of "The Oath of Knighthood" by Edwin A. Abbey, the distinguished American artist, and is one of the Holy Grail series, which decorates the walls of the Boston public library. The series represents some of Mr. Abbey's finest work.

It is the hope of the seniors who presented the picture to South High school, at a cost of \$145, that each year another of these pictures may be added, until the whole series is complete. It gives promise of being the finest mural decoration in the city.

## STATE HOSPITAL DAIRY COWS MAKE FINE RECORD

Bert Corday, in charge of the dairy herd at the State Hospital here is very proud of the achievements of the cattle owned by the state, in his care, in the matter of production of milk, butter and fat. The herd comprises 43 milch cows, all of them averaging more than 60 pounds of milk a day.

Records attained by Hereford cows at the state institution outstrip the achievement of a herd at the Athens state hospital, Corday states.

The records of five Hereford cows are as follows, in a seven day test. J. M. Beebe Mercedes Klondyke 676.9 pounds of milk, 26.82 pounds butter and 3.17 pounds fat.

## SCHOOL HEADS TO VISIT LIMA

Western Ohio Superintendents to Inspect Schools Here

Lima schools will have as their guests Friday city superintendents of western Ohio and others interested in the problem of special schools for exceptional children. Since the establishment of a department under a special appropriation of the legislature at Miami University, Dean H. C. Minnich of that institution has visited Lima and because of the special schools organized here he has sent out invitations to the school men for a conference to be held in the city Friday.

In his call, Dean Minnich explains that the six special schools of the city will be visited in the morning and that a conference will be held at the administration building at 2 p. m. for a study of this particular problem in school organization. Instruction in the six special schools in Lima is largely individual, most pupils making double the progress that they would in the regular grades, quite a number returning to the regular grades after receiving this special instruction. In addition to visiting the special schools Friday it is expected that the visiting superintendents may also observe the work in the various vocational departments of the local public schools.

## HOOCH HOLIDAY DRY AFFAIR

Prohibition Agents' Vacation Didn't Bring Dampness

### LID IS ON IN OHIO CITY

Commissioner Parker Commends Situation in State

COLUMBUS — Ohio's promise "hooch holiday," has been a dry affair.

The forced vacation of federal enforcement officers has not dampened any additional spots in the state, Don V. Parker, prohibition commissioner, said today.

Conditions along the great lake and the Ohio river continue bad because of the seepage from the waterways, Parker said, but sections of the state have shown improvement.

The situation in Ohio has not gotten out of hand, because many for federal agents have been employed by the state prohibition department, Parker explained. "Some places where liquor traffic has thrived, visited last week showed improvement," Parker said. Naming some of these spots, said his workers had been in towns in 30 counties of the state a found a tightening up at Lima, N. Greenville, Warren, Zanesville, Cincinnati, New Philadelphia, Cambridge, Cleveland, Toledo, Tiffin, Bowling Green, Greenville, Upper Sandusky, Bellevue and Van Wert. Only "fevers" have been made at Canton, Seaford, Dayton, Fostoria, Akron, Findlay, Fremont, Bellevue, Pauline, Delaware, Norwalk, Chilesville and nearby sections, but he pressed the belief that these places were enforcing the laws. A vigorous examination of these towns was made as soon as possible.

Much of the liquor supply is coming into the state from runners operating at Canada and Pittsburgh. Parker said. There are a large number of stills in the state.

Parker declared before the end of summer, Ohio will be really dry. Urged jail sentences for violators place of light fines and recommended that cities pass ordinances permitting hiring outside help in checking bootleggers.

## 16 INDICTMENTS ARE RETURNED

Grand Jury to Resume Deliberations Friday

## ALLEGED BANDITS ARE HELD

Witnesses in City Vice Probe to be Called

The Allen-co grand jury returned a partial report of its findings, after a two days' session, Tuesday afternoon at 5 o'clock.

Sixteen indictments were returned, of which 14 are made public. Two indictments, each for robbery, were brought against Joe Willis and George Donovan, for the part they are alleged to have played in the robbery of the farm home of Samuel and Jacob Felt, bachelor brothers, near Bluffton, on May 14.

John Mason, another of the alleged bandits captured after a gun battle with police in which Raleigh Townsend was killed, on May 21, was indicted for carrying concealed weapons.

The jury was ordered to report at 10:30 o'clock Friday morning to complete its labors. Forty-four witnesses were examined, 23 cases investigated and seven cases ignored by the body.

## WOMEN INDICTED

Two indictments each were returned against Gladys People and May Kelly, young women now confined in the county jail. Both are charged with shoplifting from the Dandel store.

Garry J. Merrill, negro, 339 E. North-st., was indicted for operating an automobile without consent of the owner. Merrill is the driver of the large Cadillac car on the night of May 1, which crashed into a telephone pole at Jameson-ave. and North-sts., when one of the negroes, five of whom are said to have been on a joy-ride, was killed. He was Allen Ford, 1033 W. Spring-st.

Merrill is declared to have taken the car, which belonged to Ora Green, contractor, from the auto laundry, in the rear of the court house, for the ride. The automobile, purchased only a few weeks before, was practically demolished.

C. P. Craig, against whom an indictment for forgery was returned, was brought back to Delphos from Detroit, where he was apprehended. He is charged with securing \$72 from Rimer Davis on a check drawn on the Cleveland Trust company.

**FOR CARRYING WEAPONS**  
J. Thompson and James Massey were arrested at Spencerville for carrying concealed weapons. The men left Huntington, Ind., carrying revolvers in their pockets and were arrested in Spencerville upon advice from authorities in the Indiana city.

Frank Davis, indicted for burglary and larceny, is charged with burglarizing Swick's barber shop some weeks ago. He was apprehended at Sidney a few days ago and returned to this city. His case was taken up to the grand jury from municipal court.

## Interviews-- Ideas and Fancies

LEIGH S. WATSON, Resident Manager, E. W. Wagner & Co.: "The decrease of about 13 percent in railroad wages, plus the elimination of 'watered payrolls,' will greatly aid in putting the railroads on a firm financial basis. It is doubtful whether the decrease will be great enough to permit a general reduction in railroad rates, but it is a step in the right direction. Transportation costs must be reduced in order to cause reductions in other lines to be effective. The difficult problem in reducing wages and freight rates in proportion to the declines in the cost of living is to determine just how great those declines have been."

J. KENNARD JOHNSON: Manager Chamber of Commerce: "A merchandising institute to be held here in October by J. W. Fiske will benefit the public in much the same way that a teachers' institute does. It will show the merchant how to handle every department of his store in the best and most efficient manner. Every department, from the store front to the newspaper advertisement, including buying, delivery, storage arrangement and merchandise turnover will be discussed. The weak spots will be discovered and remedies recommended. Of the eight proposed meetings, five will be for the merchants, two for everybody and one for the women of the city, that they may voice their criticism of present policies. These criticisms will be taken up with the merchants later."

F. W. NEWELL, 1128 W. Wayne-st.: "The question of employing the prisoners at the state penitentiaries in the manufacture of various products during the present period of unemployment is an important one. The need of some kind of employment in order to keep the prisoners in a sane condition is recognized, yet they should not be put into competition with the worker who has himself and a family to support. It would seem to me that there should be some things they could do that would not conflict with outside labor. The mere cheapness of their labor should not be the reason for their employment in preference to that of other workers."

JAMES G. MACKENZIE, County Commissioner: "I have not fully decided what I will win the world's heavyweight championship at Jersey City, July 2. Both of the fighters are very good and it seems to me that it will be a better fight than the Toledo mill. Carpenter is a scientific boxer of the Corbett type and will be able to hold his own with Dempsey, even if he is outweighed. I do not believe that it will be as one-sided a match as many seem to think. Of the white boxers in the U. S. Brennan seems to be the strongest contender. There is at least one colored boy that could show Dempsey some action, however."

**CITIED FOR CONTENT.**  
Failure to pay his divorced wife, Mildred Lipps, amount of \$50 alimony and \$3 a week for support of their minor child, Raymond Lipps has been cited to appear in common pleas court Saturday to show cause why he is not in contempt of court. A writ was granted Mrs. Lipps on April 30, last, on grounds of neglect.

**INFANT DIES**  
The infant child of Mr. and Mrs. Camille Cardone, 931 Atlantic-ave., died Wednesday. Funeral services were held Thursday afternoon and the small body was laid to rest at Gethsemani.

## NO SEEKERS FOR TOWNSHIP JOBS

Aspirants Must be Under the Wire by June 9

No one in Lima apparently wants a job as assessor, constable, justice of the peace or member of the board of education. All these places are going begging, A. J. Morris, clerk of board of elections, said Thursday.

"June 9 is the last day for filing notices of candidacy for the August primaries," Morris stated. "Up to noon Thursday no petitions have been filed. There is just one week for them to get in under the wire."

Candidates for the above named offices are the only ones who have to file on or before June 9, it was stated. Others under the commission form of government can wait 30 days, July 9, before announcing.

Because Ottawa-tp is the only one in Allen-co containing in excess of 2,000 population it is the only one entitled to hold a primary for justice of the peace.

City primary this year will be a queer affair for old political war horses. All the old time battles are missing. No councilmen to be nominated or elected, no fight on mayor, city auditor or other municipal offices. Just the five commissioners, and a few minor township offices.

There is a lot of speculation as to who will run for the five perches on the commission. Many are being talked of, some are trimming their sails, but not one has been shocked into filing by a bolt of political lightning to date. But there is plenty of time in the next five weeks July 9 will be the last day for commissioner candidates. Aspirants for assessor, constable, justice and school board must be under the wire June 9, according to Clerk Morris.

## FARMERS MAY FORM CO-OPERATIVE FIRMS

COLUMBUS — Ohio farmers may establish co-operative commission firms in Cincinnati, Cleveland and Pittsburgh.

This is held to be the logical result if plans of the livestock marketing committee of 15 of the American Farm Bureau Federation, are put into operation. This recommendation was embodied in a report of a subcommittee and adopted by the general committee meeting in Chicago on May 24, 25 and 26.

Harry Beal of Mt. Sterling, treasurer of the Ohio Farm Bureau Federation, is a member of the committee, and attended the recent meeting.

Such commission firms, it is said, are in operation in Omaha, St. Joseph, Kansas City, Chicago and South St. Paul. The firm in Omaha is said to handle more hogs than any other in the world.

## WORDS OF THANKS.

Words fail to express our thanks to the friends for their beautiful floral offerings. The American Legion for their masterful work. The Rev. Howard for his consoling words. Interment of our beloved son and brother.

BRYAN J. HIRE, MOSES R. HIRE, Gus D. Hire and Family. The news was sad, the shock severe. We little knew the end was near. To part with one we loved so dear. It had been seen you at the last and held your dying hand. And heard the last sigh of your heart. We did not know the pain you bore, We did not see you die, We only knew you went away, And did not say good-bye.

## CLASS OF 1921 PRESENTS ABBY HOLY GRAIL SERIES PICTURE TO SOUTH HIGH

Lima South High school has been presented with a valuable Copley print, the gift of the class of 1921. It is a large hand-colored copy of "The Oath of Knighthood" by Edwin A. Abbey, the distinguished American artist, and is one of the Holy Grail series, which decorates the walls of the Boston public library. The series represents some of Mr. Abbey's finest work.

It is the hope of the seniors who presented the picture to South High school, at a cost of \$145, that each year another of these pictures may be added, until the whole series is complete. It gives promise of being the finest mural decoration in the city.

Pauline Pontiac Rose Segis, 558.4 lbs. milk, 27.14 lbs. butter, 3.89 lbs. fat.

Duchess Beauty Rag Apple, 562.4 lbs. milk, 27.14 lbs. butter, 3.83 lbs. fat.

Bethie Segis of Wild Rose, 559.9 lbs. milk, 22.64 lbs. butter, 3.25 lbs. fat.

Records of the late Baxter Trevor, N. Charles-st., amounted to \$4,326, according to appraisement filed in the office of Judge J. H. Hamilton.

Of the amount, \$4,000 is in real estate and the remainder, money on deposit.

## HOOCH HOLIDAY DRY AFFAIR

Prohibition Agents' Vacation Didn't Bring Dampness

## LID IS ON IN OHIO CITY

Commissioner Parker Commiserates On Situation in State

COLUMBUS — Ohio's promise "hooch holiday," has been a dry affair.

The forced vacation of federal enforcement officers has not dampened any additional spots in the state. Don V. Parker, prohibition commissioner, said today.

Conditions along the great lakes and the Ohio river continue bad because of the seepage from the waterways, Parker said, but other sections of the state have shown improvement.

The situation in Ohio has not gotten out of hand, because many for federal agents have been employed by the state prohibition department, Parker explained. "Some places where liquor traffic has thrived, visited last week showed improvement," Parker said. Naming some of these spots, said his workers had been in towns in 30 counties of the state a found a tightening at Lima, X sonville, Warren, Zanesville, Cincinnati, New Philadelphia, Cambridge, Cleveland, Toledo, Tiffin, Bowling Green, Greenville, Upper Sandusky, Bellevue and Van Wert. Only "feckers" have been made at Canton, Seaford, Dayton, Fostoria, Akron, Findlay, Fremont, Bellevue, Chillicothe, Delaware, Norwalk, Painesville and nearby sections, but he pressed the belief that these places were enforcing the laws. A vigorous examination of these towns would be made as soon as possible.

Much of the liquor supply is coming into the state from rum runners operating at Canada and Pittsburg, Parker said. There are a large number of stills in the state.

Parker declared before the end of summer, Ohio will be really dry. Urged jail sentences for violators. Place of light fines and recommended that cities pass ordinances putting hiring outside help in charging bootleggers.

## INGROWN NAIL

Toe Nail Turns Out Itself if You Toughen Skin

## TRUCK OWNERS TO MEET JUNE 13

First Convention That Will be Held on Ships

HORSES REGAINING VALUE

Over 600 Delegates Expected to Attend

DETROIT, Mich. — (By Associated Press) — Questions of interest to the trucking industry will be discussed during the "all-water" convention of the National Motor Truck Owners' association, to be held on Lake Huron June 13 to 16. The 600 delegates from all parts of the country who are expected to attend the convention will leave here on a lake steamer June 13, cruise to Mackinac Island, and return to Detroit by water on the final day of the meeting. The delegates will not leave the ship during the cruise, all business sessions being held on board. This is said to be the first time in the history of the Great Lakes that a national convention has been held on shipboard. The truck horse will have its inning during the convention, according to F. L. Henk of Detroit, secretary of the organization. The advisability of using the horse for trucking purposes when short hauls in cities are desired will be pointed out, it is said. According to Mr. Henk, truck owners in all parts of the country are returning to horses for short hauls, having found them more economical than motor trucks. The motor trucks are found more advantageous for hauls between cities and for long hauls within large municipalities. Mr. Henk pointed out. Trucking men in Chicago and other cities are depending more each year upon horses for short hauls, according to figures obtained by the secretary. Legislation and means of expanding the truck business generally also will be discussed during the convention. The freight deck of the steamer Noronic, which will be used for the cruise, will be fitted up as a convention hall for use of the delegates.

Among cities that will be represented in the convention will be Buffalo, Chicago, Cincinnati, Denver, Des Moines, Dubuque, Kansas City, Mo., Minneapolis, New York, Niles, O., Philadelphia, Pittsburgh, Rochester, N. Y., St. Louis, Warren, O., Youngstown, O., and Detroit. Frank J. Abel of Buffalo is president of the national organization.

## OHIO PHONE MERGER DECLARED ASSURED

COLUMBUS — Merger of Ohio Bell and Ohio State Telephone Companies is assured, Franz Huntington, head of the committee financing the \$50,000,000 proposition, announced today.

"Plenty of stock has been deposited to make the contract operative," Huntington declared today when the time limit expired for exchanging stock in the present companies for the new issue.

"We have extended the time for making deposits to June 15, to accommodate those who had excusable delays, but the stock already deposited assures approval of the proposition. We have not found any opposition from stockholders."

Congress' action late yesterday in passing the Graham bill authorizing construction of telephone systems was in line with plans of Ohio telephone officials, Huntington said.

## PAVING UNDERMINED BY SEWER LEAKAGE

Condition of the asphalt at Elizabeth and North-sts is to be investigated by Service Director Elmer McClain, who believes that the pavement at that point is being undermined by sewer leakage. ## STEEPLE-JACK STEINER TO REMOVE FLAG POLE FROM SQUARE BY JUNE 10

No longer will the Stars and Stripes fly from the flag pole in public square on state occasions. Contract for taking down the pole was let to J. H. Steiner, 1355 W. Wayne-st. Thursday by Service Director Elmer McClain. Steiner agrees to take down the pole by June 10. Action taken by Director McClain will end the long controversy over removal of the pole. Council ordered it taken down, but later rescinded the action when petitions from civic and patriotic societies were filed, protesting. Later, the pole was again alleged to be a menace to public safety and was ordered removed. Steiner is a "steeple jack," and will perform much of the work which necessitates ascending the pole, alone. He will be assisted, however, by Chief Mack, who will loan him extension ladders and other apparatus.

## COMPETITION KEEN IN CORN CLUB CONTEST

COLUMBUS — Competition in the Ohio State University's Hundred Bushel Corn Club is going to be keen this year, according to Professor W. E. Hanger, crop specialist at the university. The contest is conducted with the co-operation of the county farm bureaus. Membership is given every farmer, who succeeds in averaging 100 or more bushels of corn to an acre, or at least 10 acres.

Each county has its own contest and the county winners compete for the state championship. Gold medals are awarded by the university to the winner in each county and a loving cup to the state champion. All yields are calculated to a uniform moisture content, and to a basis of shelled corn.

Rules and entry blanks may be obtained from county agents, or from the department of farm crops at the university.

## \$50,000 PLANT IS DESTROYED BY FIRE

WILLIAMSON, W. Va. — Fire snuffed today in the plant of the High Grade Oil Company here, destroyed late last night with an estimated loss of \$50,000.

The fire was caused by an explosion in a gasoline tank wagon near the plant. Flames swept over the buildings of the company and burned many barrels of oil.

Fire fighters confined their efforts to prevent the blaze reaching a 20,000 gallon gasoline tank buried in the ground near the plant. Many residents fled to the hills for safety when they learned of the danger from the huge stock of gasoline.

## GAME WARDEN'S CASE TO BE HEARD TOMORROW

COLUMBUS — Hearings will be conducted at Bowling Green Friday on the appeal of William L. Snyder, game protector, removed from the position by N. E. Shaw, secretary of agriculture, the state civil service admission announced today. State civil service commissioners Brown and Swisher will conduct the probe.

Snyder was accused of selling fish and permitting others to follow the practice. Other charges were that he killed and trapped squirrels out of season and hunted on private lands without permission of owners. He also was charged with failure to arrest offenders of state fish and game laws.

## COUNCIL TO AID RIVER PLANS

Will Vote to Release \$12,000 For Clearing Channel

Enactment of legislation by council to make available \$12,662.50 river improvement funds to dredge the river below the Erie bridge, will be the first step taken toward clearing out the stream, it was decided at a joint meeting of council and the Chamber of Commerce river committee Wednesday.

Originally the two bodies, or rather members of both, met with some of the others and citizens for the purpose of ascertaining if the money could be used to clear out the old channel.

It was decided that this could be done, but money so expended would be wasted unless the channel is opened down stream about 500 yards. An island forms a barrier below the bridge, and water cannot get away.

A contract for this work was let to F. A. Frohase, last year, but was never commenced. City Auditor David L. Rupert announced that he would not pay for the work, because it was outside the city limits and money was appropriated for improvement between the Pennsylvania and C. & E. bridges. The work let to Frohase is beyond the bridge.

Altho council ordered the work pushed and City Solicitor H. E. Garling stated that it was incident to river improvement, nothing was done.

It is now proposed to exact emergency legislation thru council transferring the money to the sinking fund and then use it to pay for extension channel. Emmett E. Everett and C. Preston were appointed to wait on Auditor Rupert and learn on what terms he will release the money. It was explained that the Auditor was not adverse to the improvement, but asks some authority for paying out the money. The same committee will then call on Solicitor H. E. Garling and have the necessary legislation prepared.

President of Council W. J. Dempster stated that the ordinance will be presented as an emergency measure Monday night. Members of the Chamber of Commerce river committee will be present when the ordinance is presented and speak in its behalf.

According to statement of Contractor Frohase, if work is commenced at once, it can be finished prior to August 1. Cost of the work, based on estimates of City Engineer Vaughn Miller, will approximate \$6,000.

Cleaning of the channel, original object of the meeting, was left for discussion at a later time.

## FIND TUNNELING FOR SEWER IMPRACTICAL

Paving of a portion of Grand-ave was ordered postponed Thursday by Service Director Elmer McClain, acting on the basis of report made by B. F. Darling supervising engineer, that soil under the street is too treacherous to permit tunneling for the collector sewer. The sewer and paving follow the same route between West and McDowell-sts. Council deemed it wise to tunnel beneath the street, and lay paving at the same time. Darling was ordered to make borings. Out of ten tests made, four were favorable, three unfavorable and three bad.

## \$5,000 BONDS ARE FOUND BY POLICE

Claimed Hidden in Dempsey Home by Alleged Bandit

Police, late Wednesday afternoon, acting upon the belief that John Mason, alleged member of the McGann Townsend bandit gang which staged a running pistol fight with police here, Saturday, May 21, had secreted bonds in the home of Mrs. Anna Dempsey, 330 Reece-ave, searched that house and discovered more than \$5,000 worth of negotiable paper and government stamps, believed to have been stolen from the Hunters-town, Ind., bank by the gang.

Chief Roush, Thursday morning, denied the bandit acted upon a tip received, but said, he has been under the belief for several days that Mason had hidden the bonds in the Dempsey home. One thing, he says, that substantiated his belief was: Mason is said to have entered the home during the fight with a package of some kind concealed within his shirt. When arrested a few months later, however, there was no package.

This, combined with the fact that efforts to locate the bulk of the bonds had therefore proven unsuccessful, led police to make the search Wednesday night, the chief declared.

Mason is said to have entered the Dempsey home following a battle with Deputy Sheriff Fraunfelder, which occurred some time after the fight in which Raleigh Ross, Townsend bandit leader, was killed, presumably by Officer Dick Watkins. Fraunfelder sent in a call for assistance and police arrived. After firing several shots, Mason surrendered.

The bank at Hunters-town, Ind., has been notified by Chief Roush, but no answer has been received. Chief Roush criticizes the Hunters-town bank officials because he has never been furnished with a list of the stolen property, or the numbers of the bonds which were taken.

"I had a long spell of sickness which left me in a badly run-down condition and seemed I couldn't get on my feet again," declared Mr. H. P. Altman the well known contractor who resides on Route 4, Findlay, Ohio.

"My stomach was out of order so that my food failed to properly digest but turned to gas bloating me up; this kept me weak and I became nervous so that my sleep was broken. My bowels were bound up, I had headaches and dizzy spells which were very annoying and my tongue had a thick coat on it.

"I have taken four bottles of Dreco and I'm like a different person. Why, my strength is up to normal again and I go about my work full of energy. My stomach digests everything and I never have that gas these days, my bowels act regular, never have a dizzy spell, in fact, I'm in fine shape and give the credit to Dreco. It is good medicine.

## RHEUMATISM Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every draught in this country is authorized to say to every sufferer that if two bottles of Allenbuh, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment. Allenbuh has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless. Mr. James H. Allen, the discoverer of Allenbuh who for many years suffered the tortures of acute rheumatism, declares all sufferers to know that he does not want a cent of anyone's money unless Allenbuh actually conquers their worst of all diseases, and he has instructed J. Hunter's Drug Stores, University Drug Store, Thompson's Drug Store, Interurban Drug Store, Public Drug Store to guarantee it in every instance.—Adv.

## Kidney and Bladder Troubles HAVE TO GO

Clogged up Kidney Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

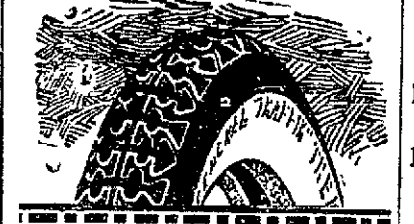

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them." Dr. Carey's famous prescription No. 777 known as Marshbrook is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bloating, irritability with loss of flesh, backache, rheumatism or any other tendency to Bright's Disease, Diabetes or Gravel, for kidney diseases in its worst form may be stealing upon you. Don't wait until tomorrow to begin the use of this wonderful prescription. If you have any of the above symptoms, Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unalarming certainty. Never mind the failures of the past if you even suspect that you are subject to Kidney Disease, don't lose a single day for Hunter's Drug Stores and every good druggist has been authorized to return the purchase money on the first two bottles to all who state they have received no benefit.—Adv.

## PROHIBITION'S ANNIVERSARY

TWO years Ohio has been under prohibition law. The second anniversary has come and gone. No one paid any particular attention to it. There was no formal celebration or anything of that sort. No one was asked to celebrate it.

Many persons have taken stock of the situation and many reviews are being given. Two years ago the organized and licensed traffic in intoxicating liquors came to an end in this state, but the organized and illicit traffic has been growing since the advent of the law that gave the skidoo sign to John B.

There appears to be no liberal organization to give an estimate of the extent to which it has grown. It admittedly is true that many persons who were irregular in their habits during the time when saloons were in operation have been eliminated and the workhouses have been reduced in some places.

During the same period, however, police and prison records demonstrate that Ohio has passed through almost a continuous "crime wave," that life and property are today no more secure than they were two years ago. In fact, property does not appear to be as safe now as then. It is pointed out by friends of the prohibition law that the extraordinary outbreak of crime is due to economic conditions and unrest caused by the war. They point to the increase in crime in liberal countries. This is held to be indicative that the open sale of intoxicants or secret sale practically has no effect upon the prevalence of crime.

It may sound like exaggeration, but no one has disputed the statement that it is probable there are more than 50,000 illicit stills in the state of Ohio. Where there were formerly 200 breweries, there are now hundreds of thousands of home brew outfits. The family that "makes its own" is large in numbers. Millions have been spent in an effort to enforce the law, but little or no headway has been made.

## SLAVES OF DUTY

ONE thing that can be said for Einstein is that he has put a new joy in life, while the explainers of the Einstein theory have done their best to take it out again. Einstein announced a new universe, which only a dozen or so men might understand and now the explainers are trying to make everybody understand it. The joy which Einstein promised humanity was exactly the joy of not having to understand. He sprung something that was not a challenge. He presented the opportunity of a complete surrender, a perfect faith and an unquestioning acceptance. Now the commentators are calling upon us to meet the challenge of Einstein's universe in terms confined to one syllable.

It may be that it can be done, but most likely it cannot be done. It is according to Genesis that the Lord created the world in words of one syllable. It must be said that the commentators on Einstein are not so successful. But they have been successful in adding one more heavy item to the average man's unhappy state of mind that is the fruit of unfulfilled obligations. Modern man gives a part

of his life in the painful process of duty. In keeping his spirit young and up to the minute, he gives himself over to the masseurs, vibrators, ray specialists, pencilers, reducers and marcel wavers of the human intellect.

The aim of duty is a higher and more exhausting one than the beauty shop. Patrons of the latter are not possessed of aspirations to rival the Egyptian face that brought the world into a state lost for love or the Grecian face that is accredited with having launched myriads of ships.

So much for slaves of the duty shop. This is not an attempt in explanation of the Einstein universe; rather a commentary on the result of its being brought into being. The really happy are those who haven't the time to endeavor to understand it. Einstein is said to be happy, but then his joy came probably thru the application of effort in evolving it. So everybody ought to be satisfied.

## PUGILISM AND MONEY MAKING

NEAR approach of the Dempsey-Carpentier fight makes pertinent comment on the possibility of money making in pugilism. When the Dempsey and Willard fight was held in Toledo the gate receipts totaled \$452,522. Eighteen years previously, when Jeffries and Ruhm battled at San Francisco, the box office receipts were only \$30,800. That was considered a mighty big box office intake—at that time.

The record shows constant increase in receipts, as battle after battle is staged. In 1902 the Jeffries-Fitzsimmons fight produced about \$32,000. When Nelson and Britt met in 1904 the receipts mounted to \$48,311. At Sydney, Australia, the Johnson and Burns fight brought \$67,000. The Goldfield returns were nearly \$70,000 in the Gans-Nelson fight. When Johnson and Jeffries met at Reno the box office receipts mounted to the astounding figures of \$270,755. Back in 1897 when Fitzsimmons and Corbett fought at Carson City, the gate receipts were \$22,000.

Despite the fact of its big expenses, pugilism has won its way as one of the most lucrative of the professions. In the earlier days of glove contests it was difficult to capitalize fighting outside the ring. It is different now. In the old days there wasn't the moving picture to afford its income for the fighters, in the training camp and later at the ringside when the actual fight occurred.

Carpentier only drew a sneer when he announced that his sparring with his trainers would not be turned into money. There has been and still is no denying the fact that there has never been a really popular champion since the days of John L. Sullivan. There has always been something against general popularity for the man who has earned the "belt."

Sullivan was the only one of the champ family who was ready at any time for a battle, in defense of his title, without a lot of jockeying and evading and horse play. He fought to win his laurels and he was ready to meet any and all comers to defend them.

### THE GOLFER AND HIS CADIE

It was a little caddie boy one pleasant summer day Who drew a well known business man to bear his clubs away, And oh, the little lad was proud to think that thru the game He'd be a partner of a man so widely known to fame.

The man was noted in the press, and many a tiny Tim Would dream the pleasant dreams of youth when he would be like him, And likewise did this caddie boy who thought from him he'd learn The way to make a great success when it should come his turn.

The business man was off his game, It grieves me sore to say, He was not honest with himself nor (Copyright, 1921)

He did not truly count his score, nor fairly play the game, The boy discovered he was false, despite his business fame, And when the boy got home that night, he said manner grim:

"I hope when I grow up I won't be anything like him."

Oh man, if you would know yourself and get an honest view, Go out and learn just what it is your caddie thinks of you. The sign of shame is on your brow, to stay forevermore, If you're the kind of man the boys don't want to caddie for.

## HEALTH HINTS

By William Brady, M. D.

Nevus (older spelling, naevus) is the medical term for birthmark. There are two types of nevi, the pigmented mole or stain, and the vascular nevus or port wine mark. The pigmented mole may be any size from a stain the size of half the finger-nail to a wartlike mark the size of the hand, on any part of the body but most frequently on the forehead, neck and back. They sometimes appear only some months after birth. They seldom change in size or character when once developed, although there is a certain tendency for moles to undergo malignant degeneration (become cancers) in persons of middle age or older, and this is particularly true of blue or black moles.

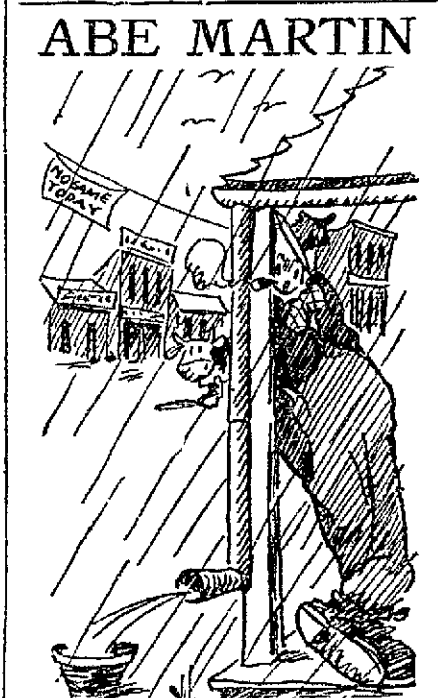

Small brown moles may be removed by electrolysis, by fulguration (an electric treatment used only by physicians), or by the actual cautery (incandescent heat). No one except a surgeon or physician may safely attempt the removal of these birthmarks. Large moles, especially when they are warty or rough or covered with hairs, may also be removed by electrolysis, but in most cases the best results are obtained from X-ray alone, or sometimes from operation, followed by X-ray treatment. In recent years surgeons or physicians have employed carbon dioxide (solidified carbonic acid) with much success in destroying birthmarks without producing disfiguring scar. Carbon dioxide cannot be employed by any one without surgical training. It freezes the tissue to which it is applied.

Vascular nevi are small, flat port wine stains (capillary vessel dilated), or larger, thicker, raised, made up of dilated veins, varying from bright red to purple in color. The color appears momentarily under pressure, unlike that of pigmented mole. The larger vascular nevi collapse under pressure like a sponge. The skin over the mark is sometimes smooth, but most commonly roughened like orange peel. Birthmarks of one kind or another are present in one-third of the newborn infants. Nobody can explain birthmarks. The only wonder is that any of us are born without them—that human development is usually so perfect to the smallest part of the body.

A modern treatment for vascular nevi is the injection of hot water. In some cases electrolysis (the electric needle) may prove successful or at least improve the appearance. Tattooing with acids gives fair results in skilled surgical hands. In young babies freezing the mark with carbon dioxide snow for a few seconds often proves successful. X-ray and radium treatments have both been found effective in removing different types of vascular nevi. All of these treatments are obviously unsafe except in skilled hands. There is no safe treatment applicable for birthmarks in the hands of any one who has not had proper training. Hideous scar formation and eczema or blood-poisoning are the great danger when such treatment is attempted by unqualified persons.

## 'THRU THE BACK DOOR' IS LATEST PICKFORD PLAY

"Little Mary" in Her Customary Role of Getting Into Trouble at Every Turn

Picture is Scheduled for Early Run Here—Directory of the Movies

(By ESTHER WAGNER.) PLEASING, diverting picture of the sort in which moviegoers long have seen Mary Pickford, is her latest, "Thru the Back Door."

Comic scenes in it are particularly good. There is the scene in which she tracks mud over a clean floor, and is set to scrubbing it. She floods the floor with soap and water, then makes play of work by fastening the scrubbing brushes to her feet and skating over it.

There's her scene with the big fish. She takes it out of the ice chest to play at fishing in a puddle. The housewife misses the fish, and goes after the innocent cat.

Then there's the scene with the donkey. Belgian girl. Her widowed mother married an American and went to live in the United States. Girl, left behind, is supposed to have died, but grows up in a peasant family. When the war breaks out she is sent to her mother, who now has a grandly fashionable estate in America.

Girl isn't recognized and becomes a parlor maid in her mother's house, finally making her identity known, and marrying a rich young neighbor. At the point where the movie middle, an interesting disagreement between her mother and step-father is developed.

Jack Pickford directed it, his first. Contrary to general expectations his part in it is effective. "Thru the Back Door" is scheduled for an early run in this city.

## IRENE DALTON, MOVIE STAR, STARTED AS TYPIST

Not so long ago an advertisement in a Chicago newspaper asking for a stenographer to be employed by a motion picture concern. It was an ordinary liner ad buried among hundreds of others, but it spelled a film career for a pretty little Chicago girl.

Irene Dalton is the girl and when she tripped into the office to answer the advertisement she did not want to run a typewriter, for from it. She had all the desired qualifications, however, and was engaged. She was disappointed at not being given a job before the camera but nevertheless she struck to her typing and soon she was given her chance. It was then realized that she had "everything" that is to say she had a wonderful figure, beauty and talent and personality. And so now Miss Dalton is playing leading parts in Vanity comedies and perhaps you may see her thus attired in her next one.

WHETHER BOBBED OR NOT YOU'LL LIKE THIS RIBBON CAP FOR DANCING WEAR

This quaint and charming little cap, which fits closely to the head, is designed for wear to the formal summer dances. It is fashioned of net with many loops of picot-ed ribbon completely hiding the net. Streamers of the ribbon fall coyly at one side. Such a little cap or onnet is strangely suggestive of olden days and is quite in keeping with the new dancing frocks with

their tight little bodices and full skirts. The nice thing about it is that the girl with bobbed hair or the girl who knots her hair on the back of her head can wear these little caps. They are becoming and they keep one's hair in place, which is a hard thing to do on a warm summer's night when dancing on a hotel veranda or perhaps on a

By SUSIE SMART

Advised That a Little Courage is What He Needs

"W. C. Grey Eyes" Has Desire to Be a "High Flyer"

Dear Miss Smart: I am very much interested and I think in love with a certain girl with whom I have simply a speaking acquaintance. I am very

COURAGE is what you need, young man. As you evidently have been introduced to this girl, there is no reason why you should not as-sess to call or invite her to go with you to some place of amusement. As the friendship progresses, you should then be able to tell, by her man-ner, whether or not she is seriously interested in you and whether she of-fers sufficient encouragement to justify a proposal.

As your acquaintance with this girl progresses, you must remem-ber that it will not be correct for you to ask her "to keep steady company with you." The monopoly of a girl's time and attention should be given only to a fiance. If at any time you have a proper understanding with her, you may expect that she will give up all her time to you. Until then, however, the proper thing for her to do is to divide her time among her men friends as she chooses.

Dear Miss Smart: (1) Can you tell me where the avia-tion recruiting offices are? I want to become a flyer and want to learn but I don't know whom to write. (2) Is Sergeant Long at the Phoenix Block yet? If so, what is his number? (3) Write letters to the recruiting of-ficers of the army, navy and marine at Columbus, asking if they are still accepting enlistments in the avia-tion sections of these branches. (2) No.

Dear Miss Smart: My son gave me a lovely vase for Christmas. Will you please tell me how to fix a rose jar?

Dry the rose petals partially. Sprinkle a little salt and cinnamon on them; put them in the sun and al-low them to become thoroughly dry.

Dear Miss Smart: (1) Will you please give me a good recipe for some new kind of candy? (2) Do you think dancing is alright? I am but some people are always giving us the "dickens" about it. (3) Do you know a new way of combing the hair? I am tired of all this fuzzy hair. (4) I have a very dear girl friend who al-ways uses so much rouge and other paints and wears her dresses so short. Do some people talk about her and I don't like that.

THE KID (1) Here is a recipe for nougat which might meet with your ap-proval: Blanch one pound of sweet almonds in boiling water. When stripped of the skins, cover them with ice water for five min-utes. Take them out and dry them between two clothes and shave with a small sharp knife into thin strips. Put them into a slow oven until they are very slightly colored. Mean-while, melt three-fourths of a pound of fine white sugar without adding water in a porcelain kettle over the fire, stirring it all the while to pre-vent burning. When it bubbles up and is quite melted, take off the ket-tle and instantly stir on the hot al-monds. Pour in the nougat; press it thin and flat to the bottom of the pan if you desire to cut it into strips. The strips should be a bright yellow before putting in the almonds. (2) Certainly. It makes a clean, splendid and very enjoyable

pastime, providing it is carried out properly. (3) If you are becoming tired of this "fuzzy" hair I would advise you to refrain from "fuzzing" yours. The newer styles are simple and plainer and indeed, very prett-y. (4) If you feel that your friend does not dress properly and that she is being criticized, I think it would be only the duty of a friend for you to tell her. Of course, you must be very tactful and not say anything to offend her. Probably she does not realize how she is dressing and be very grateful if you were to sug-gest that she try to correct her style of dress somewhat.

## MAN WHO WAS TIRED OF HIS WIFE

They dined together on the club-house porch. Mary was gay and sparkling. She teased Charles unmercifully. They lived thru a storm of bridge in the Habitué and game of house. She was the only one who had their summer had left their mouths. She always ran true to form, and that particular evening she had cackled much about "when the cat's away the mice will play." Joined by her both of them in common ejaculated, "Oh, them solemn as they shook the dam!" in chorus as they shook the dam of their pathway from their feet. It was so funny and unexpected, their saying it aloud and together, that they laughed immoderately as they strolled homeward in the cool starlight. His arm slipped across her shoulders in exactly the same friendly way it had when she was a little girl and they had prowled a little homeward from the village hand concert.

"Remember how Aunt Debs used to leave the freezer out for us to freeze Wednesday nights?" he asked suddenly.

"Before we started," she answered, demurely removing his arm. "I told the Model Mafes wages would be docked if she didn't leave at least a pint and a half of pineapple sherbet on the cellar stairs hanging."

"You treasure!" he exclaimed. "I don't know what your poor old Charles boy would do without Miss Imp."

"Be sure to save some for old Miss Imp," she teased, looking at her mental tone as she opened the cellar door. "Oh, I almost forgot something!" While you're digging in, I've an errand—don't let any run down in the can. I'll be back in a jiffy."

He heard her little roadster bang out of the yard as he set the freezer in the kitchen table. He waited five minutes, ten minutes, he began to get very impatient.

"Don't see why she didn't tell us where she was going," he growled, peevish at the waiting. Trudge, don't see why she's so blamed severe about where she was going, and when the car slipped back to the drive toward the garage he held the door for her. "Where the deuce did you go?" he demanded genially.

"Just where I pleased," she answered.

## A WIFE IN THE MAKING

By PHYLIS PHILLIPS

Aunt Della stayed a week, and during that time she and Cherry had several talks together. Cherry found that this new relation of hers was a motherly soul, disposed to love the world with all its faults, and eager to see the good in people, wherever it was possible.

"It don't help folks one bit to be always on the lookout for the most in someone's eyes. And I've always found that if you look for the best in your fellowmen, you'll find it sooner or later," she explained one afternoon as they were walking out in the country together. Aunt Della had one strong grudge against the people of Wellsburg; they did not walk enough. "Made money too fast, the money of 'em and how they must all be riding in their own cars. 'Taint a bit good nor healthy for folks, either. Girls in my days were much stronger than they are now, my dear, and they seemed to be happier, too, somehow."

"I just love to walk, Aunt Della," said Cherry, in answer. "So when ever you feel like a hike, call on me. You see, I was brought up in the city, and most of my walks consisted in walking the hard, pavements. It was always a great treat to us, as children, when we were taken to the country and could take real walks, on real earth."

"You're a sensible little girl," vouched Aunt Della, smoothing Cherry's cheek affectionately. "Just the sort of a wife that our boy needed. I'm glad that he found you 'stead of taking some of the empty heads that ran after him before, girls whose parents made money too quickly for their own good, or their children's either. He'll do

while to give." He strode toward her angrily. "I tell you I'll make you pay!" His fingers brushed her arm. "Why, Imp, dear, you can't mean that you've been playing wumme—that you don't care about me!" "Look here," he pulled a string of white corals from his pocket. "I've been carrying these around like a sentimental fool for the last two weeks. They're the corals I forgot to get for you when you were little. And—and—the feeling I have for you now is so big—that I was afraid to try to give these—afraid to try to give you anything—afraid to speak or breathe almost, for fear I'd offend you—"

She took them from him. She said a lovely thing as she pressed her lips against their cool, pink-flecked surfaces.

(Concluded Tomorrow)

things with you at his side, I'm sure.

Cherry fell to wondering about these corals. Who had killed Ned's life before she did. She was sensible enough to realize that there had been other girls in her husband's life as there had been other men in her own before she came along. That was only natural. But maybe there had been one special one in Wellsburg, say, who had hoped to become the wife of Edward, and now carried about a broken heart? Her Edward. Her dear man.

"Now, don't you get to worryin' about an old woman's remarks about other girls, dearie," broke in Aunt Della's voice, suddenly.

"Lordy, how miserable a young wife can make herself, if she allows her thoughts to run away with her. I know. Because I went thru it all, after I married my Jim. My old Jim was always a great hand with the girls, and even after we were married he had some of his old flames makin' sheep's eyes and

thinking that I didn't know it all the time. Men are just naturally silly inclined that way—some of 'em. But I cured him of that. I can tell you. Made up my mind that I was going to be queen bee or fly away. So one fine day, after Jim had been having one of his relapses with one of those old flames I took myself out of the house. Picked up his son and heir, three months old, and went away. An' when Jim came some that evening he found an empty house. They can't stand that, any of 'em, my dear. And it wasn't three days before he had ridden eighty miles on horseback to my parents' home to fetch me back, an' he went down on his knees to accomplish that, too." Here Aunt Della went into silent chuckles or delight at the memory of her husband's meekness.

"It aint you're in doubt about things and feel that you're goin' to do something foolish—jes' you take the train up to your old Aunt Dell's and we'll fix everything up together."

As Cherry hugged the dear old soul, after these words, she sighed happily. Yes, Aunt Della was to be a friend, the very best in the world. (To Be Continued)

## "WHITE HOPE" DAYS WERE MERRY WITH CARL MORRIS ORIGINAL HOPE

A DEFEAT for Jack Dempsey in his coming bout with Georges Carpentier would be a hard blow at the heavyweight ring game in America. For, until Dempsey annihilated the mountainous Jess Willard at Toledo two years ago, the heavyweight class has been in a chaotic and uncertain state since Jim Jeffries retired in 1905. The period between the defeat of Jeffries by Johnson and Jess Willard's downfall was interesting as the "white hope" days, but the status of the men who held the limelight was always in question. Dempsey, when he licked Willard, was proclaimed as great as Sullivan, Corbett, Curly Bob and Jeffries—the men who made America the center of the heavyweight game. Now, if Carpentier—whose prowess is much discredited—should win over Dempsey, the game in America will once more be in an uncertain, wobbly condition.

### CARL MORRIS FIRST "HOPE"

To return to the "white hope" days—

The first man put forward as the "logical man" to wrest the crown from Johnson's black dome was Carl Morris. Morris was an unknown until he was touted as a white hope. He lived in Sapulpa, Okla., and spent most of his time firing on the railroad. He had fought in the ring, tho, with considerable success. Physically he looked to be a good man. He was big, powerful and a hard hitter. But he never learned any

ring science. Carl is still fighting about the country, but he still lacks ring generalship, a good defense—and what is more—the fighting heart.

Almost overnight these bopped up with Carl Morris a flock of other white hopes. Among these were Jim Flynn, Al Falzer, Al Kaufman, Luther McCarthy, Arthur Pelky and later Jim Savage and others. Gunboat Smith, Frank Moran and other men known to heavyweight ring fans also sought the honor of coping the crown.

Johnson's first important fight after beating Jeffries was with Flynn on July 4, 1912, at Las Vegas, N. M. Flynn was no match for the negro. Police stopped the fight in the ninth round and Referee Smith awarded the decision to Johnson.

### JOHNSON DISGRACES GAME

The following year Johnson, who had been "going the pace that kills," got into such trouble for violation of federal laws that he was practically eliminated from the fight game. The same year a tournament of white hopes designed to produce a man to challenge Johnson was staged at Los Angeles. Luther McCarthy proved the star of the tourney, and after he had beaten Al Plazer, Al Kaufman and Jim Flynn was proclaimed white heavyweight champion of America.

There were a dozen white hopes who disputed his claim, however, and the scramble for the title continued. In May of that same year, 1913, McCarthy met

Arthur Pelky, one of the leading rivals, at Calgary, Canada. Pelky knocked McCarthy out in the first round. McCarthy collapsed in the ring and died in a short time. The coroner's jury which probed his death gave the cause as hemorrhage of the brain, probably caused by a previous injury. McCarthy's death left the white hope situation more muddled than ever.

Gunboat Smith met Pelky at San Francisco Jan. 1, 1914 and knocked Pelky out in the fifteenth round. Whereupon Smith promptly claimed the title.

### WILLARD STEPS UP

All this while Jess Willard was being steered toward the top of the heap. A giant in stature—he stands six feet seven inches—with a terrible reach and a more terrible punch, Willard did look like the logical man to be pitted against Johnson. Willard had killed one man — Bull Young — when Young got Willard slightly peeved in a ring engagement.

Willard was a wonderful specimen from a physical standpoint. Years of outdoor life at ranching and cowpunching had given him an iron physique. A match between Johnson and Willard finally was arranged and was staged at Havana, Cuba, April 5, 1915.

The match left a mean odor in pugilistic circles. There has always been talk to the effect that Johnson

bet against himself—that he was slated to lose. No one ever proved this.

### WILLARD SHOULD HAVE WON

Taking the rumors and gossip for what they are worth, there were two things that pointed toward Willard as the better man. First, his youth and stamina. Second, Johnson's poor condition. Johnson had been living a life of dissipation and ease for years.

Willard took all the punches and combated Johnson's cunning as best as he could and gradually won the negro down with his unsentimental but sledgehammer punches. Johnson was knocked out in the twenty-sixth round.

There may have been a shadiness about the fight but these facts remain. Johnson abused the honor and the fortune the public gave him. He did not deserve to wear the most coveted crown in pugilism and Willard was the man who stood in the ring with him for 26 rounds and came out the victor. If the bout did not bring the crown back to the white race in a blaze of glory it at least restored it.

Johnson fought just one important battle after losing to Willard before fleeing from the law. That was with Frank Moran at New York on March 25, 1916. The bout smelled to high heaven. Moran lumbered away at Johnson without effect and Johnson was content to use his defensive skill and cunning to keep Moran away from him.

## Dempsey Is Becoming Fretful--Other Sport Talk

Jack Dempsey is beginning to show indications of cracking under the spell of his enforced four days of idleness. The heavyweight champion is becoming more fretful because of the inactivity at his camp and is eager to resume his conditioning grind on Saturday, which will be continued without interruption until he finishes training for the defense of his title against Georges Carpentier at Jersey City July 2.

Despite the fact that Jack Kearns, manager of the champion, placed his training paraphernalia under lock and key before he departed for New York, Dempsey could not resist the temptation to go on the road Wednesday, it became known today. The champion left camp secretly and alone, returning forty minutes later dripping with perspiration. He covered between five and six miles.

The title-holder broke his silence on the possible outcome of his fight July 2, when a friend asked him point blank if he would knock out Carpentier.

"I have a hunch that I will," he would do if Carpentier landed flush on his jaw like he did against Joe Beckett, in England.

"I guess I'd have to resign, too," smiled Dempsey. "But he hasn't hit me on the chin yet."

Later on Dempsey was asked what

HEIDLER TELLS OF HEAVY HITTING REASONS

President John A. Heydler, of the National League, has set forth a number of possible reasons for the unusual amount of heavy hitting in the major leagues this season, but he does not claim that any of them is the right one.

"To begin with," he says, "the attention turned to Ruth by his home players swinging with full power in place of chopping or trying to wait out the pitcher. The result is that when they connect, an extra base drive develops, if the ball eludes the fielders."

"I think that the ball itself also enters into the problem, altho the makers have stated repeatedly that its construction does not differ materially from that of 1920."

"I have noticed that the hide covering the ball appears to be stretched tighter and that the thread used in sewing the seams is drawn so tightly that it does not protrude over the cover. This makes for a more solid and harder ball, which, when hit cleanly, is certain to travel faster."

and to a greater distance than would be the case with a more loosely packed sphere. It also gives the pitcher less opportunity to secure a satisfactory grip on the ball preliminary to throwing his curves.

"Still another reason is probably the constant calling for new balls. The least sign of roughness or discoloration is usually cause for tossing out the ball and the injection of a new one."

"This results in the pitchers being obliged to constantly handle new balls with their smooth, glossy surface, which cannot be gripped or curved with the same effectiveness as a used and roughened ball. A clean ball is also easier to see as it comes up to the plate and, all in all, the batter is having the better of the breaks at the present time."

"I am inclined to think, however, that with the coming of real hot weather, the pitchers will work better and regain, to some extent, their mastery over the batters who have been on a rampage since the beginning of the season."

caliber. Business is not done in front of a Reno hotel, with the distant Nevada mountains forming a purple background in the twilight.

Rickard is reached in a private office, if one has important matters to discuss, only after a gauntlet of secretaries and other office dignitaries are passed.

In place of the hotel lobby is a suite of offices. Mails and telegrams flow into the executive department of Madison Square Garden in an endless stream. Messengers depart hourly to adjacent banks to cash the proceeds of ticket sales. No big mercantile corporation is busier.

Rickard sits in his inner sanctum, the walls of which are hung with photographs of the scenes of his earlier and more spectacular promotions. His date book shows every minute accounted for until 5 p. m. or later.

And Rickard gazes at the photographs of Goldfield, Reno, Alaska and the plains of Paraguay. He swings in his swivel chair and glances out of the window sees the hot brick wall of a towering building across the narrow street. Success imposes penalties even in pugilistic promotion, for Tex Rickard is an outdoor man.

OH, HEAR WHAT GEORGES' PARTNERS SAY!

Sparring partners who have entered the ring for workouts with Georges Carpentier declare that Dempsey's chances of winning over the French boxing champion are extremely slim.

Jack Goldberg, a welterweight from Panama, who received a bit of punishment in the stable arena yesterday, declared he had never seen such a powerful right hand.

"It will fool anybody," he said.

MUTT AND JEFF—ON THE LEVEL, AINT JEFF QUITE RIGHT?

By BUD FISHER

SHORT SHAVINGS

A teacher who had given a lesson on geometrical drawing asked

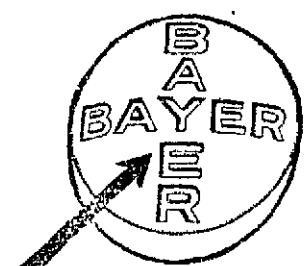

user class the question, "How can you make a blaise cross?" One bright little girl raised her hand at once, and, on being asked for the answer, replied without hesitation: "Please, teacher, step on its tail."

A certain darkey "extra" appeared on the Hal. L. Roach "lot" one morning a picture of vice, and he insisted upon telling his "misery" to that popular film actor, Harold Lloyd. "You don't mean to tell me that the furniture movers took everything, do you?" asked the Pathe star after listening to the tale. "At's what Ah do, Mistah Lloyd," was the answer. "They took everything but the sidewalk an' they promised to come back fo' that."

"You have no heart!" Pale but fearless she stood before him. She was poor but proud.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Tablets of Aspirin cost few cents. Druggist also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid—Adv.

Adverse fortune had reduced her wardrobe, driven her and her venerable mother to the top flat of a back street house and hardened the lines about her still beautiful mouth. her blue-black eyes or tame the unconquerable spirit that animated every fiber of the huson form standing erect and waiting his answer. "You have no heart," she repeated. "No, miss," replied the butcher, "but we've got some nice liver. Will that do?"

Entertain on the Porch

When it's your turn to entertain, give your friends a nice little surprise.

They'll enjoy it, too! In summer nothing could be cooler, quieter and more enticing than a dainty luncheon prepared and served on a shady, trellised porch—surpassing.

An electric samovar and grill will do this for you—and you might let hubby have his breakfast out there, too. An electric toaster and a percolator will start him off happy and carefree on the most depressing day.

Electric "maids" make everybody happy — there's something so efficient and satisfactory about them and they save money.

Let your pleasant summers start from this one—we'll show you how.

Come in any time. Don't hesitate—we have prices and terms that will suit you.
